Introduction

This event is called UNI Open European Championship because is famous the unicyclists hospitality.

For this reason we are very excited to invite riders from all other continents, if they like to join us.

The title of European champion will be won by the first continental rider, but all competitors will be able to compete and, if able, to win a award.

The town of Mondovi is happy to host the international community of unicyclists and is doing its best to offer all the facilities needed for a big event like UNIOEC.

The organizing group is composed of people who believe in the unicycle as a vehicle for sports and entertainment, we also believe that the unicycle environment is able to generate great challenges but also, great friendship and fairness.

For this reason we are proud of the recognition of the official European Championship that the IUF gave us.

We are sure to offer all participants twelve unforgettable days of sport and holiday.

Registration will open beginning of September 2014..

Road

24" - 29" - Unlimited

The 10km is already defined for the 90%, it is completely paved road with little change of altitude.

Traffic will be interdicted on the entire circuit during competition.

The 42km have three options

the ring I propose in the map, amazing country road completely paved

On some crossroad police will be present to manage the passage of the riders.

This ring is with some change of altitude and could be quite challenging.

A second option is a bike path more smooth and in good condition not completely paved.

This bike path have to be reached with a bus (in case we will provide the transport).

The third option (it is the most liked) will consist of 3 rounds on a ring of 14k in the same area of the 10K.

This option is the best one also for public and management.

Hockey and Basketball

All the 4 semifinals and finals of both competitions will be played in the Big Hall.

Other gyms will be available for the first tournaments

We have to say we have not a big experience on hockey and basketball.

On the other side we are very respectful of riders and their needs.

For this reason we are looking for more expert people to collaborate with us to organize tournaments as best as possible.
